EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harry Smith on November 20, 2007.

The application has been amended as follows:

Please enter the amendment attached to the present Office Action.

Allowable Subject Matter

2. Claims 30-38, 40-50, 52-53 and 55-56 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 30, 43, 46 and 49 recite among other features "automatically changing the visual indicator to a reading guide in response to the eye tracking apparatus recognizing a user's eye movement pattern as a read mode, where the reading guide is located in a margin at the beginning of a line of text that is read; repositioning the reading guide in response to the eye tracking apparatus determining that the user approaches the end of a line of text; and in response to the eye tracking apparatus determining that the user's eye movements are one of slowing down or stopping on a link in the text, exiting the read mode and changing the visual indicator to a pointer for a pointing device to enable the user to click on the link".

The examiner was unable to find a reference or combination of references that teach or suggest the above limitations.

However, Richardson, Levine, Murrell and Lemelson when combined teach a reading guide which scrolls consecutive lines of text by tracking the gaze of a user's eyes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
